

**PROCHECK DIAGNOSTICS**  
Identify the root cause of your challenges before they become critical.

**PROCHECK CONSUMABLES**  
Consume intelligently by ensuring your process receives what it requires to operate perfectly.

**PROCHECK REBUILDS & UPGRADES**  
Prolong and enhance the life-time of your equipment by tuning it to today's requirements.

**PROCHECK PLANTS & SYSTEMS**  
Make your visions and business goals become reality with uncompromised, holistic solutions.

**PROCHECK EQUIPMENT**  
Deploy the right equipment, adapted to your products' specifications in order to meet your expectations.

**PROCHECK ORIGINAL PARTS**  
Replace what needs replacing with the quality your process deserves.

**PROCHECK SERVICES**  
Combine your experience with ours to bring your process to new levels.

**PROCHECK PROCESS ENGINEERING**  
Shape your concepts and ideas with tailor-made, experience-driven engineering services.

PROcheck systematizes all instruments and actions with which you can keep an eye on the efficiency and potential of your processes at all times and optimize your success: diagnostics, equipment, consumables, original parts, rebuilds & upgrades, service, plants & systems, process engineering.

With PROcheck, we show you very specifically where and how you can sustainably maximize your productivity and thus your results over the entire life cycle of your plants, systems and machines. So that you'll be also in perfect flow in the future!

**Our PROcheck promise**

Our ideas, our conviction and our understanding of this approach have a lot in common with all of our private lives. After all, it makes sense to identify the roots of our challenges, to focus on the right equipment, to consume intelligently and sustainably, to replace what needs to be replaced, to keep adapting to current requirements, to combine our own experience with the know-how of experts, to implement plans and goals with uncompromising, comprehensive solutions, and to shape concepts and ideas with experience-based services.

**Sustainability for a livable future**

Sustainability is a core value for us: We make decisions taking into account long-term consequences for the HAYER & BOECKER family, for the entire universe of our customers and for the well-being of future generations. We follow this fundamental approach and strive with all our technologies to improve living conditions for humanity. That's our mission!

**PROCHECK**  
WE ARE ALWAYS THERE FOR YOU

We are at your side throughout the entire life cycle

Mastering the three dimensions of product, packaging or screening media and machine technology is the basis of our expertise and the starting point for your perfect flow. With our PROcheck life cycle approach, we add the time component and accompany you on the way to your goal. We understand it as our philosophy and it's our understanding for a functioning and successful partnership to always have your process in view and to look after it throughout its entire life cycle with our products, our services and our tools. We've developed PROcheck as an orientation for precisely this because we are always there for you.

# PLANTS & SYSTEMS

## PLANTS & SYSTEMS

- Packing Plants and Systems  
 Contact: Daniel Denisow  
 Phone: +49 (0) 2522 30-8788  
 E-mail: d.denisow@haverboecker.com

**Make your visions and business goals become reality with uncompromised, holistic solutions.**  
 Nothing is more important to your success than your own product and workflow. Therefore, don't compromise when it comes to your packing process: Make sure your systems and equipment are designed to meet the specifications of your products, not the other way around. Don't rely on a generalist to deliver your systems and equipment as cheaply as possible, but rather on a family of specialists to get the job done as profitably as possible.

**Shape your concepts and ideas**  
 The better the plan, the easier, faster and more profitable the execution. It has been proven, that by investing a bit more energy in the engineering stage, you can save a lot of time and money during the realization stage. We offer a complete line of services.

# PROCESS ENGINEERING

**PROCESS ENGINEERING**  
 - Concept-, Detail-, Flow- and Plant Optimization Engineering

**Identify the root cause of your challenges before they become critical.**  
 Every good doctor knows: The key to good health is not treating symptoms, but identifying the cause. Your process is no different. Don't spend an endless amount of time and energy fighting the symptoms. Remedy the cause with our help and with smart services, software and analytical devices. Because only healthy processes are really economical.

**DIAGNOSTICS**  
 - POP – Plant Optimization Plan  
 - Bag Testing Equipment  
 - Product Testing Equipment  
 - QUAT'RO® System Intelligence

Contact: Dennis Friemel  
 Phone: +49 (0) 2522 30-8703  
 E-mail: d.friemel@haverboecker.com

**Combine your experience with ours to bring your process to new levels.**

No one has more experience in operating your equipment than you do. Think about what could happen if you combined that experience with the service-quality of the people that built it? We are convinced that by working hand-in-hand as process partners, we can achieve a long-lasting high-performing process. Let us help you achieve your goals with a unparalleled line-up of services, designed with your process in mind.

## SERVICES

- Commissioning, Assistance, Support, Health & Safety, Calibration, Documentation, Training & Consulting, Operation & Maintenance

Contact: Valentin Kalthoff  
 Phone: +49 (0) 2522 30-454  
 E-mail: v.kalthoff@haverboecker.com

# SERVICES

## Use the right equipment

In industrial processes, it is like in sports: You can only achieve peak performance if your heart function is adapted to the task at hand. The heartbeat of any process is generated by the machine technology that drives it. Do not compromise and make sure, that the technology you use is adapted to your product and not the other way around. The development of our technology brands is driven by precisely this conviction and passion.

## EQUIPMENT

- ELEMENTRA® – Semi-Automatic
- INTEGRA® – Fully Automatic
- ROTO-PACKER® – High-Speed
- RADIMAT® – Bag Applicator
- ADAMS® Technology
- SEAL Technology
- Components

Contact: Johannes Fahrendorf  
 Phone: +49 (0) 2522 30-8200  
 E-mail: j.fahrendorf@haverboecker.com

## Extend the service life of your plants by supplementing current requirements

Time does not stand still. Your process will always have to adapt to new requirements. That does not mean that you need to invest directly in new equipment to stay competitive. Why not simply prolong the life of your current packing equipment or, better yet, optimize its functionality? There are several reasons why you should rebuild and upgrade existing machines to achieve the best possible performance from your packing machine.

## REBUILDS & UPGRADES

- PERFORMANCE® Rebuilds & Kits for Packing machines
- ELEMENTRA®
- INTEGRA®
- ROTO-PACKER®
- RADIMAT®

Contact: Jens Strotjohann  
 Phone: +49 (0) 2522 30-8523  
 E-mail: j.strotjohann@haverboecker.com

## Replace what needs replacing with the quality your process deserves.

Our HAVER & BOECKER original spare parts are your guarantee: the guarantee that your system will run optimally. Do not let inferior spare parts cause unplanned downtime, a breakdown or, in the worst case, even accidents. Don't compromise; buy original parts.

## ORIGINAL PARTS

- HAVER Original Parts

Contact: Markus Heidfeld  
 Phone: +49 (0) 2522 30-336  
 E-mail: m.heidfeld@haverboecker.com

## Consume intelligently

The annual expenditure on consumables is often higher, than you spent on the one-time investment of equipment, which requires them. Consumables are the fuel for your process. You need the right material for peak performance and success. We consult, design and even provide your consumables for every step and phase of your project. Regardless of whether you are commissioning, ramping up or you simply want to optimize your process on an ongoing basis.

## CONSUMABLES

- Bags and Films
- Tools
